Proudly Manufactured in Great Britain

Our History

In 1986, Elite Office Furniture began production in Howden, East Yorkshire. Two years later production moved to larger premises in Goole, East Yorkshire with a workforce of 12.

The business has seen progressive growth over the last 35 years, now standing as a multi-million-pound business, occupying 244,254 sq ft of manufacturing space and employing 150 people.

Our people are at the heart of everything we do, with the current workforce still bearing the original staff and factory operatives that started with the company all them years ago.

Our Future

Strategic decisions being made now are pathing the way for further success at Elite.

Our new manufacturing facility sustains future production and allows us to develop within the industry, not only as a major competitor, but one with strong credentials to minimising the effect of manufacturing on the environment.

Because of our investment, we believe the future at Elite going to be exciting, a journey we want you to be a part of.

Standards

Furniture, Acoustic Screen, Dividing Screen and Seating Accreditations

Furniture Accreditations

BS EN 527-1:2011
Office furniture desking dimensions.

BS EN 527-2:2002
Office furniture desking mechanical safety requirements.

BS EN 527-3:2003
Office furniture desking strength and stability.

BS EN ISO 9241-5:1999
Ergonomics of VDU/TFT screen usage within offices.

BS 4875-7:2006
Strength and stability of shelving.
Test level 4 (shelves only).

BS 6396:2008 + A1:2015
Office furniture desking electrical systems.

BS EN 13722:2004
Gloss/reflective level testing on furniture surfaces.

BS EN 14073-2:2004
Strength and rigidity testing of storage furniture part 2.

BS EN 14073-3:2004
Strength and rigidity testing of storage furniture part 3.

BS EN 14074:2004
Endurance and stability testing of storage furniture.

BS EN 15372:2008 level 2
Standard and folding tables structurally suitable and stable for general contract use.

BS EN 14323:2004
Dual Board resistance to scratching, cracking and staining.

Acoustic Screen Accreditations

BS EN ISO 354:2003
Measurement of sound absorption in a reverberation room.

ISO 11654:1997
Sound absorbers for use in buildings - Rating of sound absorption.

ISO 9613-2:1996
Attenuation of sound during propagation outdoors.

ISO 9613-1:1993
Calculation of the absorption of sound by the atmosphere.

BS EN 12667:2001
Thermal Conductivity / Resistance Performance.

BS EN 13501-1:2007 +A1:2009
Fire Classification Of Construction Products Building Elements.

BS EN 13823:2010 + A1:2014
Reaction to Fire Tests. Thermal attack by single burning item.

BS EN ISO 11925-2:2010
Reaction to Fire Tests. Ignitability of building products subjected to direct impregnation of flame - part 2 Single-flame source test.

Dividing Screen Accreditations

BS 476-7:1987
Flammability test for Screens (Class 2).

BS EN 1023-1:1997
Office furniture screens, dimensions.

BS EN 1023-2:2000
Office furniture screens, mechanical safety requirements.

BS EN 1023-3:2000
Office furniture screens, test methods.

Seating Accreditations

BS EN 1022:2005
Seating, determination of stability.

BS EN 1335-1 + BS EN 1335-2 + BS EN 1335-3
Office work chairs safety test methods.

BS EN 1728:2012 + AC:2013
Seat and Back Static Load Test and Durability.
Front and Back Fatigue Test and Impact Test.

BS EN 5459-2: 2000+A2:2008
Office seating for use by person weighing up to 150kg and for use up-to 24 hours a day.

BS EN 13761:2002
Visitor Chairs - Dimensions and Safety Requirements.

BS EN 15373:2007 level 2
Seating strength, durability and safety.
Requirements for non-domestic seating.

BS EN 16139:2013
4 Legged and cantilever seating, strength, durability and safety requirements.

BS EN 10025:1993
Specification for hot rolled products of non-alloy structural steels and their technical delivery conditions.
Applicable to all chrome plated parts.

ANSI/BIFMA X5.1-2011
International testing certificate for office chairs.
Sections:05,11.3,13,14 and 15.

TUV Eco-Circle 2008
Tested for recyclable content, harmful substances, energy saving and ergonomic design.

NEOCON
Silver Award Winner 2013 Chicago, USA.

Services

Design Services and Chair in a Box

Design Services

At the heart of Elite lies our design and marketing department that over twenty years has grown from one to seven members. The workplace is continuously evolving, with new concepts and studies shaping the way we design the environment. Our most effective way of maintaining focus on current workplace trends is through attendance at trade shows and exhibitions where we have the opportunity to meet designers and industry influencers who are selected as key-speakers, often covering pressing industry topics.

The design team delivers a breadth of varied services from 2D spacial planning to realistic 3D computer generated visuals. Whether space permits large volumes of staffing or space is an issue, the team will offer successful and practical solutions that take advantage of the available space.

Each project is carefully analysed to achieve the very best layout and conformability to your requirements, complying to current health and safety laws and guidelines. 3D design is now a well-established practice in office design and provides the best method of illustrating office layout designs. We are working to industry standard BIM level 2, that involves developing building information in a collaborative 3D environment with data attached.

For your convenience, all available CAD and Revit Blocks, Product Thumbnails and Assembly Instructions are available at: **https://www.elite-furniture.co.uk/project/downloads/**

AUTOCAD | AUTODESK REVIT | AUTODESK INVENTOR | SketchUp | 3DS MAX

Chair in a Box

Elite offer two different 'boxed' seating delivery options. Delivery cost is dependant on the option you choose, please see below the two options that are available including the code required for when placing your order. For compatibility, please refer to the bottom of each product page.

Option 1: Elite Delivery

Chairs boxed at the factory and delivered using the standard Elite transport method to your nominated address.
Delivery based on weekday multi drop vehicles / untimed delivery.

The cost for this option is **a surcharge per chair**.

When ordering please suffix the chair code with **/BOX1**.

Option 2: Courier Delivery

Chairs boxed and shipped using a courier service to your requested UK mainland address. In these instances where speed and convenience is of the essence, chairs can be dispatched within 24 hours post manufacture. No guarantee can be made regarding the exact time of delivery. 9am - 5pm is standard.

Chairs delivered by courier are dispatched in a box 1000mm high (maximum). Please expect some models to be delivered in KD format in order to comply with the couriers tolerance height for shipping. In these instances it may be the case that minimal assembly is required on arrival.

The cost for courier delivery is **a surcharge per chair**.
Delivery time is 24-48 hours upon collection by the courier.

When ordering please suffix the chair code with **/BOX2**.

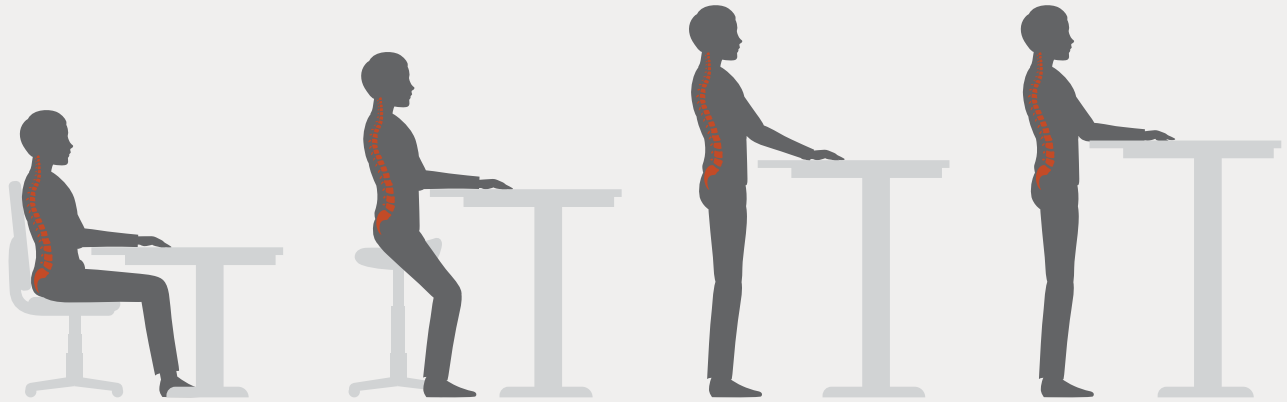
Ergonomics

Overview and Guidelines

Ergonomics Overview

Ergonomics is an applied science that aims to understand people physically and psychologically, in order to design and arrange products, environments and processes for human interaction in the most safe and efficient ways.

Sitting with the correct posture is crucial for maintaining good health, allowing bones and joints to align, decreasing the abnormal wearing of joints that could cause joint pain or even degenerative arthritis. It also reduces stress on the ligaments holding spinal joints together, minimizing the likelihood of injury. There are increasing reports of musculoskeletal disorders caused by poor workstation set ups, poor posture, repetitive movements, intensive work and infrequent breaks.



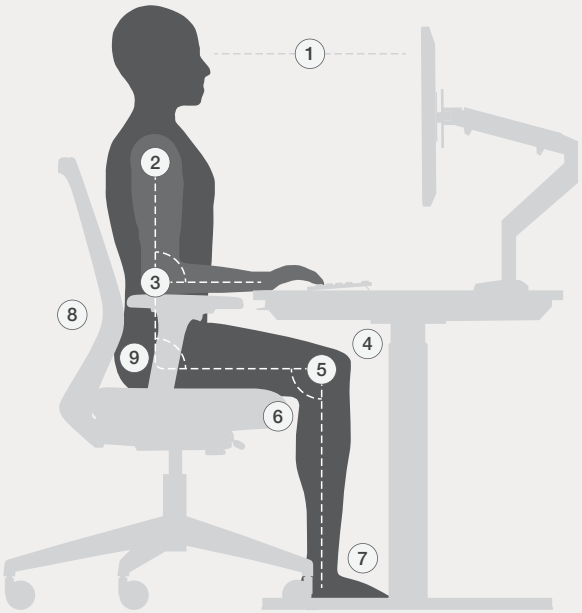
A good posture allows muscles to work more efficiently, allowing the body to use less energy and therefore, preventing muscle fatigue. It helps prevent muscle strain, overuse disorders and even back and muscular pain. Taking care of your posture will maximise comfort, safety and performance, allowing you to focus on what's important.

Chairs that have given consideration for ergonomics have a multitude of advantages. As well as correctly supporting the users posture, they provide supreme comfort with headrests, preventing neck problems and the inclusion of a cushioned seat pad as opposed to a hard seat reduces the pressure on the hips.

The diagram below illustrates the recommended natural posture, demonstrating less stress on the body, reducing the chances of harm and injury to the individual. The ergonomic chair ensures appropriate alignment of the body including the eyes, head, neck, shoulders, arms, back, knees and feet all in relation to the desk and computer screen.

Posture Guidelines

1. Maintain a distance between eyes and screen of 500mm to 700mm.
2. Keep your shoulders relaxed and not raised.
3. Keep your forearms horizontal and elbows bent at an angle slightly in excess of 90°.
4. Maintain a distance between knees and desk of 80 to 100mm.
5. Avoid pressure to the area behind the knees.
6. Keep your legs bent at an angle of between 90° to 120°.
7. Keep your feet resting on the floor.
8. Let the backrest support your back.
9. Sit firmly against the back with a small gap between the front of the seat pad and the back of your knees.



Finishes

Dual Board MFC, Nanotech, Edging and Veneer

Standard Dual Board MFC Finishes

- The 10 finishes below are our standard 25mm and 18mm MFC finishes.
- An MFC finish needs to be specified when ordering an MFC product.

Ash

Autumn Cherry

Beech

Chester Oak

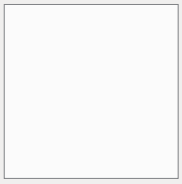
English Walnut

Grey

Grey Nebraska Oak

Laurentii Wenge

Natural Nebraska Oak



White

Standard Nanotech Finishes

- The finish below is our Nanotech finish and is subject to a **3 week lead time**.
- Undercut edging detail option available.
- Contact Customer Services for specification and lead time.

Black Matt MDF

Standard Contrasting Edging Options for White Dual Board MFC and Nanotech Finishes

- The 3 finishes below are standard edging options for 25mm White Dual Board MFC and Nanotech finishes only.
- Colourmatched edging will be applied if an edging finish has not been specified when ordering an MFC or Nanotech product.
- On White Dual Board MFC products, there will be a **surcharge** for Black, Laurentii Wenge edging and Plywood Effect edging.
- On Nanotech products, there will be a **surcharge** for Black, Laurentii Wenge edging and Plywood Effect edging.

Standard Veneer Finishes

- The 2 finishes below are our standard 25mm and 18mm Veneer finishes.
- Elite cannot guarantee continuity in the appearance of veneer panels.
- Elite process pre-veneered boards that cannot be book or colour matched.

Oak

Walnut

Whilst every effort has been made to ensure accurate colours are illustrated in this document,
there may be a slight colour difference due to the printing process, therefore please refer to our colour sample swatches prior to ordering.

Finishes

Solid Wood, Coloured MFC and Wooden Frame Finishes

Solid Wood Finishes

- The finish below is a non-standard 32mm Solid Wood finish that can be specified on Alto, Harmony and Loco Benches only.
- Finish supplied with square edging only.
- This material is natural and it's appearance will vary including grain patterns and burring / knots in the surface.
- Subject to a **3 week lead time**, see individual product pages for specification.

Oak (32mm)

Coloured MFC Finishes

- The 6 finishes below are non-standard 18mm MFC finishes that can be specified on select items only.
- Matching edging tape.
- Subject to a 3 week lead time, see individual product pages for further specification.

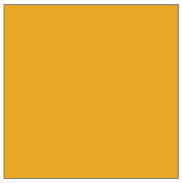
Paraline

Petrol

Red

Sea Blue

Turquoise



Yellow

Wooden Frame Finishes

- One of the 2 finishes (top) below are available as standard on ranges where wooden frames are specified.
- The 5 finishes (bottom) below are available on ranges where wooden frames are specified.
- Due to the staining process and the use of natural materials, no guarantee can be given to the final appearance and continuity when staining timber products.
- See individual product pages for specification.

Ash

Beech

Stained Walnut

Stained Espresso

Stained Wenge

Stained Black

White

Whilst every effort has been made to ensure accurate colours are illustrated in this document,
there may be a slight colour difference due to the printing process, therefore please refer to our colour sample swatches prior to ordering.

Finishes

Metalwork and Acrylic Finishes

Standard Metalwork Finishes

- The 3 finishes below are our standard Metalwork finishes.

Elite Silver

Frosted

Clear

Whilst every effort has been made to ensure accurate colours are illustrated in this document,
there may be a slight colour difference due to the printing process, therefore please refer to our colour sample swatches prior to ordering.

Finishes

Dual Board MFC and Acoustic Screens Breakdown

Dual Board MFC

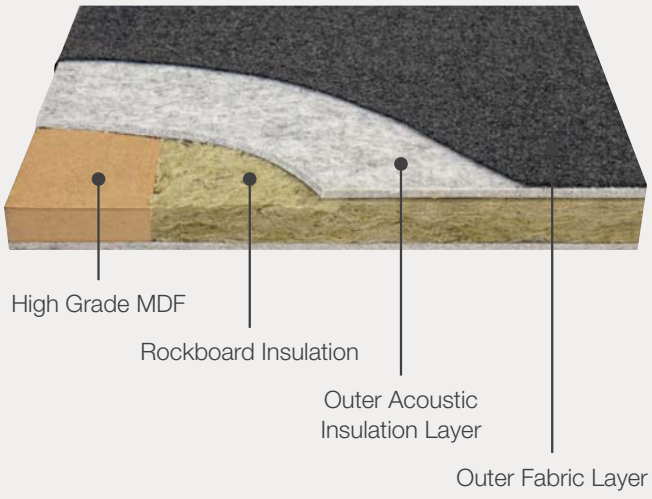
Elite are an exclusive user of the superior quality melamine board called ‘Dual Board’. The board consists of a chipboard core surfaced on both sides by a sheet of MDF. The newly developed ‘Dual Board’ material offers significant advantages including structural, machining and component strength.

The material offers Elite’s client increased quality and added value. It offers greater impact resistance combining the durability of MDF and Chipboard into a single board.

The MDF faces of ‘Dual Board’ eliminates any irregularities associated with raw chipboard and translates this into a smooth, even surface. For our highly complex production operation this level of board performance is essential and translates directly into the high standards of quality offered to Elite clients.

Accreditations
BS EN 13722:2004

Attributes
Perfect cutting during manufacture. High physical-mechanical performance, providing excellent response in demanding load situations. High resistance to impact, preventing marks, deformities or surface damage. The properties of the exterior high-density fibre layer reduce surface absorption.



Acoustic Screens (Class B)

Flexible working environments are continuing to become essential in the workplace, with a requirement to accommodate a broad range of users. Removing walls as active barriers and opting for open plan offices and furniture layouts, utilises the building footprint and delivers modular furniture to support agile working techniques. With the higher number of employees using the same space, the noise within a closer proximity increases.

Research suggests that one of the biggest contributing factors of workplace unrest is inadequate acoustics and consideration must be given to employees working in congested environments to support their productivity. Investing in acoustic screen solutions will increase efficiency and employee morale, demonstrating a considerate approach to individual’s wellbeing.

Accreditations

Progress Plus

Electric Sit / Stand Workstations, Meeting and Screens

With its clean lines and lightweight design, Progress Plus has been designed to blend into the modern office environment. Its electric height adjustment enables a smooth transition between sitting and standing, allowing users to vary their posture throughout the day. Progress Plus features an optional control panel that is operated using Bluetooth® technology between the desk and an advanced mobile app, aimed at developing a healthy routine into the workday. The panel tracks the usage of the desk, reminding users to adjust their station, changing the users prolonged sitting behaviour. Within the frame, there is an innovative wire management tray that conceals cables and is easily accessed using two folding hoods. To further personalise the desk, there are a number of optional accessories to complement the range.

Progress Plus

Height Adjustable Workstations

3 Week Lead Time

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*
Edging: Wenge, Black and Plywood Effect - *Edging on 25mm White MFC only*
Metalwork: Silver, Black Graphite and White - Chrome Effect and Raw

PP16/16/EHA

Progress Plus Electric Height Adjustable Double Bench

• 3 week lead time. • 2x 25mm sliding top panels. • Complete with 2x horizontal cable trays.
• Sit / stand height adjustment of 650mm-1280mm via electronic up / down keypad. • Anti-collision as standard.
• 640h+ mobile pedestals will clash with 1600d and 1200d double benches,
as an alternative, upgrade to Progress Plus advanced keypad (page 15).
• 640h+ mobile pedestals will protrude with 1200d double benches,
as an alternative, use **MPF** and **MP3** pedestals (page 219).

PP18/16/EHA - 1800w x 1600d x 650-1280h

there may be a slight colour difference due to the printing process, therefore please refer to our colour sample swatches prior to ordering.

Progress

Gas Strut Sit / Stand and Fixed Height Workstations, Meeting and Screens

Progress offers complete flexibility with options including fixed height and gas strut height adjustment. Each option can be fitted after the initial installation, should the user's requirements change. For example, a fixed height workstation can be converted to include height adjustment by swapping the leg uprights only. All components are fully interchangeable for maximum flexibility. The sit-stand aspect brings significant health benefits encouraging wellbeing within the office environment. Height adjustable workstations offer height variation from 685mm to 1185mm. Double benches are supplied with sliding tops as standard, enhancing the flexibility of the desking system. Horizontal wire management is inclusive under each desk top on both the single and double benches. Decorative slab end panels can be fitted to both single and double workstations to enhance the aesthetics at the end of a run of workstations, offering a more executive appearance.

Progress

How to Specify Height Adjustable Progress Workstations

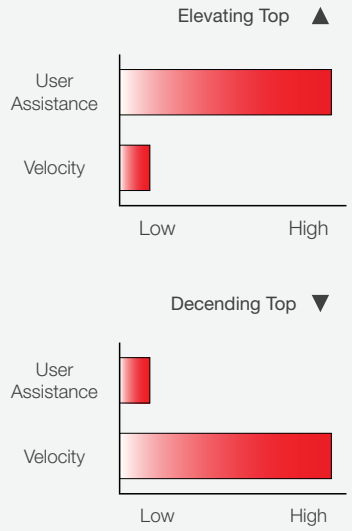
6 Week Lead Time

Introduction

For correct use of Progress gas strut height adjustable sit / stand desks, it is essential to identify the proposed loading for each desk top. Failure to identify the required loading will result in the gas strut experiencing insufficient or excessive force. See illustrations below:

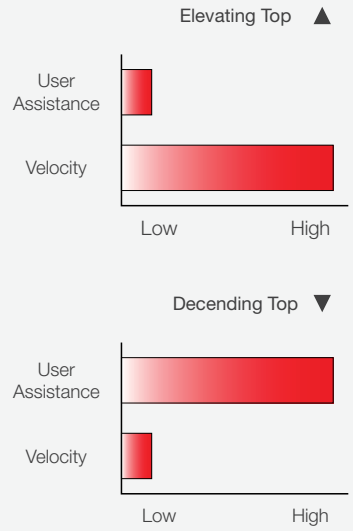
Excess Weight Loading

A sit / stand desk with higher weight loading than recommended will result in the below incorrect movement.



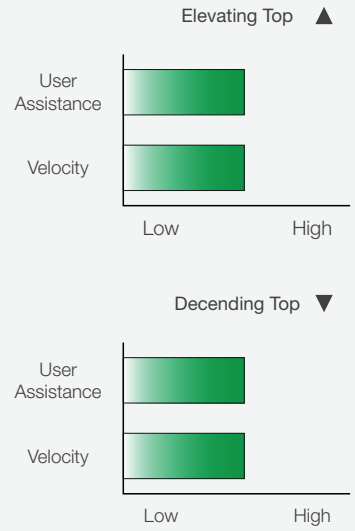
Insufficient Weight Loading

A sit / stand desk with lower weight loading than recommended will result in the below incorrect movement.



Correct Weight Loading

A sit / stand desk with the correct weight loading will operate at its optimum level as illustrated below.



How to Calculate Loading Weights

To find the correct level for all gas strut workstations, you will need to identify the weights to be loaded onto each individual desk top including equipment suspended from its sub-frame.

For Example:

Desktop Monitor, Keyboard, Mouse, CPU Tower, Laptop, Printers, Speakers, Telephone, Accessories, Power Modules, Lighting, etc.

Calculation:

Elite Manufactured Items (kg) + Client Items (kg) = Total Weight (kg)

Once the total weight is known you can specify the gas strut required from options A-F below. The letter must be suffixed to the desk code you require.

.../A	.../B	.../C
Below 4.9kg	5.0kg - 9.9kg	10.0kg - 14.9kg
.../D	**.../E**	**.../F**
15.0kg - 19.9kg	20.0kg - 24.9kg	25.0kg - 30.0kg

Example 01

1600mm Double Bench
14kg Top Weight on Desktop 1
27kg Top Weight on Desktop 2

Gas Strut 'C' and 'F' will need to be specified.

Code: P16/16/HA/C/F

Example 02

1600mm Single Desk
8kg Top Weight

Gas Strut 'B' will need to be specified.

Code: PR16/8/HA/B

Progress

Height Adjustable and Fixed Height Workstations

6 Week Lead Time

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White

Linnea Elevate

Fixed Height Workstations and Screens

The Linnea Elevate range includes single and double benches. Horizontal wire management is standard on each workstation with the added feature of sliding tops for simple access to cables. Decorative slab end panels are options that enhance the appearance of the legs and provide added privacy when configured in clusters. Other options include modesty panels for single workstations and horizontal wire management trays for double benches, providing a dynamic facility to house complex cable installations.

Lux

Fixed Height Workstations, Meeting, High Benches and Screens

Central to its design is the creation of an elegant, contemporary bench with tapered wooden legs and a cleverly engineered steel sub frame. Lux provides the perfect solution for a less corporate, modern office, dining, conference or breakout area. The range is available in a number of sizes, shapes and wood finishes providing a flexible product for many working spaces.

Lux

How to Specify Lux Combined Double Benches

'Lux Combined Double Benches' can be added to which allows for any number of positions required in a single run. Simply specify a 'Lux Combined Double Bench' and add any number of 'Lux Combined Double Benches with Shared Legs' which will be positioned in the middle of the 'Lux Combined Double Bench'.

To add radius corners to the run of benches, simply suffix **.../RC** to either the 'Lux Double Bench' or the 'Lux Combined Double Bench'. The radius corners do not apply to the 'Combined Double Bench with Shared Leg' as they will always be used in the middle of a run. See page 51.

Reflex

Fixed Height Workstations and Meeting

A sleek and elegantly angled leg frame defines the clean lines of the Reflex range giving a contemporary, executive appearance. The legs connect to a full steel sub-frame for maximum strength and stability. An optional horizontal and vertical wire management solution can be added to house cables, leaving the area free from trailing wires. Curved modesty panels are compatible with Reflex desking, adding an element of privacy and complementing the angles of the leg frame.

Reflex

Linnea

Fixed Height Workstations, Meeting and Screens

Linnea is a comprehensive range offering a variety of solutions for diverse applications. It is available with an angled or goalpost leg frame, supported by a steel sub-frame offering strength and stability. Shared legs are a feature of the Linnea range, minimising the number of legs required and increasing the useable space under the workstation. Double Benches are supplied with sliding tops and horizontal wire management trays as standard, with an optional sliding top locking device, should the user require the top to be locked in the open or closed position. Limited desktop height adjustment is an option via a Spacer Kit, enabling the workstation top to elevate in increments of 25mm starting at a standard desk height of 740mm to 765mm, 790mm, and 815mm.

Linnea

Fixed Height Workstations

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*

Matrix

Height Settable and Fixed Height Workstations, Meeting and Screens

Shared legs are a feature of the Matrix range, minimising the number of legs required and increasing the useable space, under the workstation. Included in the range is a height settable workstation offering height adjustment from 650mm to 850mm. The height is adjusted by unscrewing a single fixing in each leg upright and sliding the lower section of the telescopic leg to the desired height, using the marked height labels. The workstations are complemented by height settable screen panels, allowing the user to determine the height of the screen, irrespective of the workstation height setting. For an executive, clean appearance, optional horizontal cable trays and vertical cable risers ensure cables are routed within the workstation, from the entry point of the leg to the underside of the desk.

Matrix

Height Settable Workstations and Returns

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Edging: Wenge, Black and Plywood Effect - *Edging on 25mm White MFC only*

MMA18/16... (LH or RH) - 1800w x 1600d x 740h
MMA16/16... (LH or RH) - 1600w x 1600d x 740h

Matrix

Fixed Height Workstations and Extensions

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Edging: Wenge, Black and Plywood Effect - *Edging on 25mm White MFC only*
Metalwork: Silver, Black Graphite and White - Chrome Effect and Raw

M120/12/8

Matrix 120 Degree Workstation

• Standard lead times. • 25mm top panel. • Horizontal cable tray not supplied.
• Can be configured as a single workstation or in modules of 3, 6, 9, etc.

M120/12/8 - 2078w (extreme) x 800d x 740h
M120/12/6 - 2078w (extreme) x 600d x 740h
M120/10/6 - 1732w (extreme) x 600d x 740h

M120/12/8/INT

Matrix 120 Degree Workstation with Shared Intermediate Leg

• Standard lead times. • 25mm top panel. • Horizontal cable tray not supplied.
• Can be a single workstation or configured as a 3, 6, 9, etc, person module.
• Must be configured alongside M120/12/8.

M120/12/8/INT - 2078w (extreme) x 800d x 740h

MSR10/6RH

Matrix Secretarial Return

• Standard lead times. • 25mm top panel. • Horizontal cable tray not supplied.

MSR10/6... (LH or RH)... - 1000w x 600d x 740h

Compatibility:
For use with rectangular desking (no suffix)
For use with angular workstations (suffix **.../X** (*600d secretarial returns only*))
For use with double bench workstations without screens (suffix **.../B**)
For use with double bench workstations with screens (suffix **.../BS**)

MSME16/6

Matrix Straight Extension

• Standard lead times. • 25mm top panel.

MSME16/6... - For 1600d Ends - 1600w x 650d x 740h
MSME14/5... - For 1400d Ends - 1400w x 500d x 740h
MSME12/5... - For 1200d Ends - 1200w x 500d x 740h

Compatibility:
Desking with no screens and all 120 degree clusters (no suffix)
Desking with system or contract screens (suffix **.../S**)
Desking with acoustic screens (suffix **.../A**)

MDDSE16

MSDSE08

Matrix Decorative Slab End and Leg Frame for Fixed Height Workstations

• Standard lead times. • Designed to cover the ends of Matrix runs of desks. • Can be retrofitted.
• For use on one end of the workstation (for use on both ends, specify 2x slab ends).

MDDSE16 - For 1600d Ends
MDDSE14 - For 1400d Ends
MDDSE12 - For 1200d Ends

MSDSE10 - For 1000d Ends
MSDSE08 - For 800d Ends
MSDSE07 - For 700d Ends
MSDSE06 - For 600d Ends

Kassini

Manual Sit / Sit and Fixed Height Workstations

The Kassini range offers a myriad of options that fully utilise the unique wire management solution. Leg risers within the leg upright can be removed to enable cables to be routed vertically within the leg channel and directed into the modesty panel or wire management beam to discreetly house cables and wires. Power and data modules can easily be mounted at any position along the cable beams offering maximum flexibility for complex cable installations. The height adjustable workstations offer adjustment from 650mm to 850mm via a manual rotating handle that can be discreetly retracted within the frame, when not in use. The unique design of Kassini and the minimal number of components required, ensures a swift and efficient assembly process, reducing installation costs. Due to the nature of aluminium, Kassini offers an environmentally friendly solution as the lightweight frame can be recycled at the end of its life cycle.

Kassini

Height Adjustable Workstations

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*

Manual Sit / Sit and Fixed Height Workstations and Meeting

The Optima Plus range offers a myriad of footprints to suit the demands of the majority of applications. The unique design of Optima Plus and the minimal number of components required, ensures a swift and efficient assembly process, reducing installation costs. The cantilever leg frame is supported by an integral MFC modesty panel that can be colour matched to the work surface or supplied in a contrast finish. Within the range, a height adjustable workstation offers height adjustment from 650mm to 850mm via a manual rotating handle, that is easily operated by the user and when not in use, discreetly retracts within the frame.

Optima Plus

Height Adjustable Workstations

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*
Edging: Wenge, Black and Plywood Effect - *Edging on 25mm White MFC only*

OPR20DRH/HA

Optima Plus Height Adjustable 'D' Ended Desk

- Standard lead times. • 25mm top panel.
- Sit / sit height adjustment of 650mm-850mm via crank handle.

OPR22D... (LH/HA or RH/HA) - 2200w x 800d x 650-850h
OPR20D... (LH/HA or RH/HA) - 2000w x 800d x 650-850h

OPC16RH/HA

Optima Plus Height Adjustable Crescent Workstation

- Standard lead times. • 25mm top panel.
- Sit / sit height adjustment of 650mm-850mm via crank handle. • 600mm return.

OPC18... (LH/HA or RH/HA) - 1800w x 1200d x 650-850h
OPC16... (LH/HA or RH/HA) - 1600w x 1200d x 650-850h
OPC14... (LH/HA or RH/HA) - 1400w x 1200d x 650-850h

OPCB18RH/HA

Optima Plus Height Adjustable Bow Fronted Crescent Workstation

- Standard lead times. • 25mm top panel.
- Sit / sit height adjustment of 650mm-850mm via crank handle. • 600mm return.

OPCB18... (LH/HA or RH/HA) - 1800w x 1300d x 650-850h

OPW16RH/HA

Optima Plus Height Adjustable Single Wave Desk

- Standard lead times. • 25mm top panel.
- Sit / sit height adjustment of 650mm-850mm via crank handle.

OPW18... (LH or RH) - 1800w x 1000-800d x 650-850h
OPW16... (LH or RH) - 1600w x 1000-800d x 650-850h
OPW14... (LH or RH) - 1400w x 1000-800d x 650-850h
OPW12... (LH or RH) - 1200w x 1000-800d x 650-850h

OPW18/6... (LH or RH) - 1800w x 800-600d x 650-850h
OPW16/6... (LH or RH) - 1600w x 800-600d x 650-850h
OPW14/6... (LH or RH) - 1400w x 800-600d x 650-850h
OPW12/6... (LH or RH) - 1200w x 800-600d x 650-850h

OP120/HA

Optima Plus Height Adjustable 120 Degree Workstation

- Standard lead times. • 25mm top panel.
- Sit / sit height adjustment of 650mm-850mm via crank handle.
- Can be configured as a singular workstation or in modules of 3, 6, 9 etc.

OP120/HA - 2078w (extreme) x 800d x 650-850h

OP120/6/HA - 1732w (extreme) x 600d x 650-850h

Optima Plus

Fixed Height Workstations

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*

OPCB18RH

Optima Plus Fixed Height Bow Fronted Crescent Workstation

• Standard lead times. • 25mm top panel. • Wire managed legs as standard. • 600mm return.

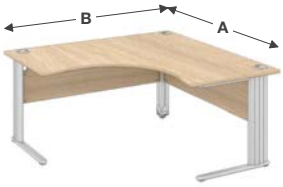
OPCB18... (LH or RH) - 1800w x 1300d x 740h

OPRC19RH

Optima Plus Fixed Height Radius Crescent Workstation

• Standard lead times. • 25mm top panel. • Wire managed legs as standard. • 600mm return.

OPRC19... (LH or RH) - 1900w x 1200d x 740h



OPSC16A

Optima Plus Fixed Height Symmetrical Crescent Workstation

• Standard lead times. • 25mm top panel. • Wire managed legs as standard. • 2x 800mm ends.
• The grain direction is shown as 'A' and 'B'.

OPSC18A - 1800w x 1800d x 740h
OPSC18B - 1800w x 1800d x 740h
OPSC16A - 1600w x 1600d x 740h
OPSC16B - 1600w x 1600d x 740h

OPW16RH

Optima Plus Fixed Height Single Wave Desk

• Standard lead times. • 25mm top panel. • Wire managed legs as standard.

OPW18... (LH or RH) - 1800w x 1000-800d x 740h
OPW16... (LH or RH) - 1600w x 1000-800d x 740h
OPW14... (LH or RH) - 1400w x 1000-800d x 740h
OPW12... (LH or RH) - 1200w x 1000-800d x 740h

OPW18/6... (LH or RH) - 1800w x 800-600d x 740h
OPW16/6... (LH or RH) - 1600w x 800-600d x 740h
OPW14/6... (LH or RH) - 1400w x 800-600d x 740h
OPW12/6... (LH or RH) - 1200w x 800-600d x 740h

OPDW16/9

Optima Plus Fixed Height Double Wave Desk

• Standard lead times. • 25mm top panel. • Wire managed legs as standard.

OPDW18/10 - 900d Centre - 1800w x 1000d x 740h
OPDW16/10 - 900d Centre - 1600w x 1000d x 740h

OPDW18/9 - 800d Centre - 1800w x 900d x 740h
OPDW16/9 - 800d Centre - 1600w x 900d x 740h

Optima Plus

Fixed Height and Linking Workstations

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*
Edging: Wenge, Black and Plywood Effect - *Edging on 25mm White MFC only*
Metalwork: Silver, Black Graphite and White - Chrome Effect

OP120

Optima Plus Fixed Height 120 Degree Workstation

• Standard lead times. • 25mm top panel.
• Can be configured as a singular workstation or in modules of 3, 6, 9 etc.
• Wire managed legs as standard.

OP120 - 2078w (extreme) x 800d x 740h

OP120/6 - 1732w (extreme) x 600d x 740h

OPK20

Optima Plus Fixed Height Kidney Desk

• Standard lead times. • 25mm top panel. • Wire managed legs as standard.

OPK20 - 2000w (extreme) x 800d x 740h

OPRR18

Optima Plus Fixed Height Radius Reception Desk

• Standard lead times. • 25mm top panel. • Wire managed legs as standard.

OPRR20 - 2000w (extreme) x 800d x 740h
OPRR18 - 1800w (extreme) x 800d x 740h

OPRDRH

Optima Plus Fixed Height Reception Desk

• Standard lead times. • 2x 25mm top panels. • 850mm and 600mm ends are slightly curved.
• Wire managed legs as standard.

OPRD... (LH or RH) - 1850w (extreme) x 1800d x 740h

OPLW8/6

Optima Plus Fixed Height Linking Workstation

• Standard lead times. • 25mm top panel. • Links 800mm and 600mm deep desks.
• Wire managed legs as standard.

OPLW8/6 - 1225w x 1225d x 740h
OPLW8/4 - 1083w x 1083d x 740h
OPLW6 - 1025w x 1025d x 740h

Optima Plus

Returns and Extensions

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*
Edging: Wenge, Black and Plywood Effect - *Edging on 25mm White MFC only*
Metalwork: Silver, Black Graphite and White - Chrome Effect

OPLU90R

Optima Plus Curved Linking Extension

• Standard lead times. • 25mm top panel. • Links 800mm deep workstations.

OPLU90R - 800w x 800d x 740h

OPLU8L

Optima Plus Square Linking Extension

• Standard lead times. • 25mm top panel. • Links 800mm deep workstations.

OPLU8L - 800w x 800d x 740h

OPSR10/6RH

Optima Plus Fixed Height Secretarial Return for Rectangular Desks

• Standard lead times. • 25mm top panel. • Wire managed legs as standard.
• Compatible with rectangular, bow fronted rectangular and 'D' ended desks only.

OPSR10/6... (LH or RH) - 1000w x 600d x 740h

OPSCMT16

Optima Plus Meeting Extension

• Standard lead times. • 25mm top panel.
• Complete with 120mm diameter support leg on 300mm diameter base.

OPSCMT16	-	For 1600d Ends	- 1600w x 660d x 740h
OPSCMT12	-	For 1200d Ends	- 1200w x 600d x 740h
OPSCMT8	-	For 800d Ends	- 800w x 600d x 740h
OPSCMT120	-	For OP120	- 1600w x 660d x 740h
OPDWSCMT18	-	For 900d Double Wave Desks	- 1800w x 800d x 740h

OPDWSCMT

Optima Plus Meeting Extension

• Standard lead times. • 25mm top panel. • Complete with 2x 60mm diameter support legs.

OPDWSCMT - For 1000d Double Wave Desks - 2000w x 800d x 740h

OPDDMT22 - 2200w x 800d x 740h
OPDDMT20 - 2000w x 800d x 740h

OPDMT20

Optima Plus 'D' Ended Meeting Table

• Standard lead times. • 25mm top panel. • 'I' frame leg configuration with modesty panel.

OPDMT22 - 2200w x 800d x 740h
OPDMT20 - 2000w x 800d x 740h
OPDMT18 - 1800w x 800d x 740h
OPDMT16 - 1600w x 800d x 740h

OPRMT16

Optima Plus Rectangular Meeting Table

• Standard lead times. • 25mm top panel. • 'I' frame leg configuration with modesty panel.

OPRMT18 - 1800w x 800d x 740h
OPRMT16 - 1600w x 800d x 740h
OPRMT14 - 1400w x 800d x 740h
OPRMT12 - 1200w x 800d x 740h

Callisto

Fixed Height Workstations and Meeting

A simplistic design provides the structure of Callisto, supporting an almost invisible wire management system. Cables can be routed from the base of the leg upright via an attractive and removable cable riser, to an optional horizontal cable tray, to carry high capacity wires under the desk top. The simple and well-engineered design of Callisto, ensures a swift and efficient installation.

Callisto

Fixed Height Workstations

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White

Flexi

Fixed Height Workstations

The Flexi range offers a slimline frame with a double upright cantilever leg. The range has been designed and engineered to offer a robust and durable solution. The leg frames are supported by an MFC modesty panel, integral to the structural integrity of the range. Vertical leg risers are compatible with the range to accommodate cables from the floor to the underside of the work surface. An optional horizontal cable tray can be positioned to the inside or outside of the modesty panel. This tray caters for cables under the work surface and access to the desktop via cable ports.

Flexi

Flexi Compatibility Breakdown

Desk Extensions

Universal Desktop Meeting Extensions

Collaboration and agile working environments are an important aspect of the modern workspace, where flexible ways of working drive business requirements. Elite's modular table portfolio provides flexible solutions, ranging from high-level benches to modular fliptop tables for transient meeting spaces. An extensive range of high and mid-level benches allow for informal meeting and breakout areas while maintaining a professional appearance. A wide range of coffee tables, varying in style, has been designed to compliment Elite's breakout seating creating a more cohesive environment.

Desk Extensions

Extension Meeting Tables

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Veneer: Available in Oak and Walnut *(3 Week Lead Time)*

Metalwork: Silver, Black Graphite and White - Chrome Effect and Raw

BEXTLH

Bow Extension Meeting Table

• Standard lead times. • 25mm top panel. • 90mm diameter leg on 300mm diameter base.

BEXT... (LH or RH) - 950w x 1160d x 740h

Compatibility: For use with the Windsor range (suffix **.../X**)
For use with all other ranges (no suffix)

CMT12

Circular Meeting Table

• Standard lead times. • 25mm top panel. • 90mm diameter leg on 300mm diameter base.

CMT12 - 1200w (dia) x 740h

Compatibility: For use with the Windsor range (suffix **.../X**)
For use with all other ranges (no suffix)

DEXTLH

'D' Ended Extension Meeting Table

• Standard lead times. • 25mm top panel. • 90mm diameter leg on 300mm diameter base.

DEXT... (LH or RH) - 1600w x 800d x 740h

Compatibility: For use with the Windsor range (suffix **.../X**)
For use with all other ranges (no suffix)

TD12LH

Teardrop Ended Extension Meeting Table

• Standard lead times. • 25mm top panel. • 90mm diameter leg on 300mm diameter base.

TD12... (LH or RH) - 1200w (dia) x 740h
TD09... (LH or RH) - 900w (dia) x 740h

Compatibility: For use with the Windsor range (suffix **.../X**)
For use with all other ranges (no suffix)

SET10

Static Eclipse Extension Meeting Table

• Standard lead times. • 25mm top panel. • 90mm diameter leg on 300mm diameter base.
• Compatible with radius executive and radius crescent desking only.

SET10 - 1000w (dia) x 740h
SET09 - 900w (dia) x 740h

Call Centre

Fixed Height Workstations, Storage and Screens

Call Centre offers a highly functional solution, supported by a full steel sub-frame, offering significant levels of strength and stability. The product features a central hub capable of housing complex, high capacity cable installations that can be easily accessed via removable steel panels. The system is practical, flexible and delivers multiple workstations in clusters for improved communication. There are six configurations available for 3, 4, 5, 6 or 8 users. Pedestals can be located over the horizontal section of the supporting leg frames and screen panels are compatible and available in MFC and fabric options to provide privacy, if required. A full range of accessories are compatible including CPU holders, and desktop electrics.

Call Centre

Fixed Height Call Centres

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White
Edging: Wenge, Black and Plywood Effect - *Edging on 25mm White MFC only*
Metalwork: Silver, Black Graphite and White

8CC

8 Person Circular Call Centre

• Standard lead times. • 25mm top panel. • 8 piece top.
• Each workspace segment measures 1200w x 1020d.

8CC - 3135w (extreme) x 3135d (extreme) x 725h

6CC

6 Person Circular Call Centre

• Standard lead times. • 25mm top panel. • 6 piece top.
• Each workspace segment measures 1460w x 950d.

6CC - 2920w (extreme) x 2660d (extreme) x 725h

5CC

5 Person Circular Call Centre

• Standard lead times. • 25mm top panel. • 5 piece top.
• Each workspace segment measures 1655w x 860d.

5CC - 2720w (extreme) x 2625d (extreme) x 725h

4CC

4 Person Circular Call Centre

• Standard lead times. • 25mm top panel. • 4 piece top.
• Each workspace segment measures 1920w x 796d.

4CC - 2710w (extreme) x 2710d (extreme) x 725h

4CCH

4 Person Semi-Circular Call Centre

• Standard lead times. • 25mm top panel. • 4 piece top.
• Each workspace segment measures 1200w x 1020d.
• Designed to be positioned against a wall. • This model will only accept 3x Call Centre pedestals.

4CCH - 3135w (extreme) x 1568d (extreme) x 725h

3CCH

3 Person Semi-Circular Call Centre

• Standard lead times. • 25mm top panel. • 3 piece top.
• Each workspace segment measures 1460w x 950d.
• Designed to be positioned against a wall. • This model will only accept 2x Call Centre pedestals.

3CCH - 2920w (extreme) x 1330d (extreme) x 725h

Interact

Fixed Height Collaborative Tables

With the emerging trend to promote collaborative working, the aim of Interact is to provide you with an agile, dynamic and interactive workspace solution that benefits from easy and reliable connectivity of all personal devices and meets the high standard expected from workspace furniture today. Interact creates a positive first impression with customers and an area to share visual information with clients and colleagues. In addition, it provides technology enabled boardroom environments where colleagues can discuss ideas and collaborate around a shared screen and instant meeting spaces with no impact on existing infrastructure. The business and education community are embracing the collaborative approach as part of their agile working methods, with the possibility of accommodating between 4 and 10 people. The primary focus being around improving the productivity of meetings.

Interact

Fixed Height Collaborative Tables

Reception

Connect and Windsor Ranges and Universal Shelves

For the environment your visitors first encounter, its important the reception area captures your organisation's culture and vision. New to the Reception portfolio, Connect provides the freedom to create a unique arrangement that takes advantage of the space available, combining an alliance between the practicality and visual appearance of the reception desk. A range of 19 modular units, available in multiple configurations, naturally incorporates all the aspects needed to ensure compliance with accessibility and visitors of all capabilities.

For a less bespoke offering, our reception portfolio also offers 3 standalone units that take inspiration from the design of our core furniture range, Windsor.

Conference / Meeting Tables

Various Conference / Meeting Ranges, Storage and Accessories

Taking inspiration from our core desking ranges, the Conference / Meeting portfolio delivers solutions and options that offer full flexibility, modern finishes and budgets to suit. Each table within the collection can be specified with wire management options and surface mounted power, data, and USB charging modules.

The introduction of timber framework into the portfolio with Lux Boardroom tables provides clients with a contemporary option to complement their workspace and make a lasting impression. The elegant Progress Plus Sit-Stand conference room table available in two configurations, with height adjustment of 650mm to 1280mm by use of a surface mounted touchpad, capable of accommodating up to 10 or 14 people.

Benches

Alto, Harmony, Loco, Cubeform, Lux and Forte Ranges

With the increase of employers seeking a more diverse, intelligent approach to desking and agile working, our Bench portfolio has been designed to provide an alternative place of working, meeting and collaborating with a range of solutions to suit all environments and requirements. For use as in-office touchdown points, a number of bench tables are offered at 740mm high with complementing bench seats.

Benches

Pedestals and Personal Storage

Mobile and Desk High Pedestals, Desktop and Personal Storage and Handles

The Elite pedestal portfolio is comprehensive and provides solutions for large volumes, mobile and personal storage. Traditional two-door, tambour fronted storage and pedestals are available in either MFC or Steel structures. Within the units, the internal system can be personalised to meet current and future filing or storage requirements.

Storage

Various Storage, Planter Boxes, Cubeform Range, Modular Lockers and Recycling Units

Elite's extensive storage options are specifically designed to complement the various desking ranges within our portfolio. Storage units are very easily configured and designed to function with different styles of accessory options. System internals are available to personalise storage and meet filing demand and expectation. A range of lockers with mobile hand-held storage devices promote flexible working and are ideal for non-fixed workplace environments. Our storage portfolio also incorporates a unit capable of controlling recycling efforts, with 2 or 3 segments to separate different recycling materials. Cubeform is our latest introduction which hosts a family of storage and informal tables solutions. Easily configured with multiple internals, the storage system can flawlessly interject any space creating designated areas or act alone to fulfil any storage needs.

How to Specify Cubeform

Vertical Frame

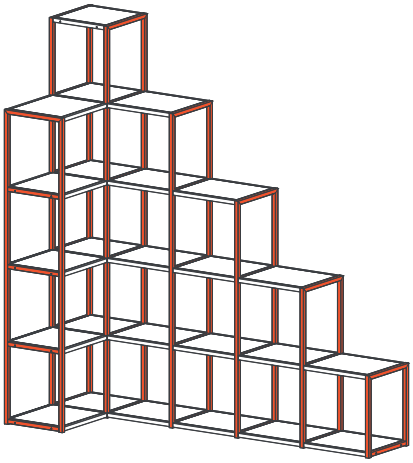
The code is for a Single Vertical Frame that is represented by a full uninterrupted orange vertical line. These Vertical Frames will be joined together when Shelves are specified.

Cubeforms specified 1 cube wide can be 1 or 2 cubes high only.

To create a configuration 2 cubes wide, 3 Vertical Frames are required, to create a configuration 3 cubes wide, 4 Vertical Frames are required, and so on.

These can be used on standard or corner configurations.

The Vertical Frames are represented in orange.

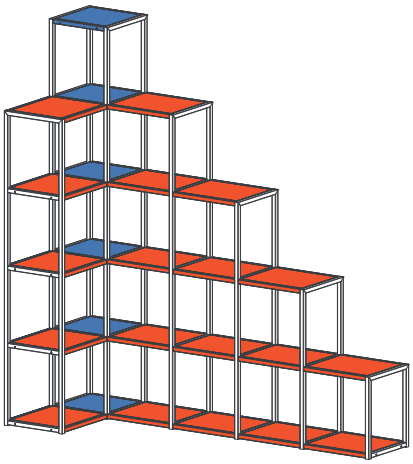


Shelves

The code is for shelves that are represented by the uninterrupted orange an blue horizontal lines. The Shelves also connect the Vertical Frames together at regular intervals on the unit. These provide the structural link for the overall unit.

Standard and Corner shelves must be specified separately.

The Standard shelves are represented in orange and the Corner shelves are represented in blue.



Accessories

A range of optional accessories are compatible with Cubeform delivering a number of flexible storage solutions.

All accessories can be retro-fitted.

Specific items have the option of different back styles. This includes a standard back, magnetic whiteboard back or fabric back.

CF/SCT1/BP - 475w x 475d x 400h
CF/SCT2/BP - 900w x 900d x 400h

Storage
Modular Lockers

How to Specify Modular Lockers

Choose any amount of modular lockers required for the given job using the code combinations below.

A - 1x 1050h Door
1x 1050h door with individual compartment and coat rail

B - 3x 350h Doors
3x 350h doors with individual compartments

C - 1x 350h Door and 1x 700h Door
1x 350h door with an individual compartment - 1x 700h door with 2x compartments

D - 1x 350h Door and 1x 700h Door
1x 700h door with 2x compartments - 1x 350h door with an individual compartment

E - 1x 1400h Door
1x 1400h door with 2x compartments and coat rail

F - 4x 350h Doors
4x 350h doors with individual compartments

G - 2x 700h Door
2x 700h doors with 2x compartments each

H - 2x 350h Doors and 1x 700h Door
2x 350h doors with individual compartments - 1x 700h door with 2x compartments

J - 2x 350h Doors and 1x 700h Door
1x 350h door with an individual compartment - 1x 700h door with 2x compartments - 1x 350h door with an individual compartment

K - 2x 350h Doors and 1x 700h Door
1x 700h door with 2x compartments - 2x 350h doors with individual compartments

L - 1x 350h Door and 1x 1050h Door
1x 350h door with an individual compartment - 1x 1050h door with coat rail

M - 1x 1050h Door and 1x 350h Door
1x 1050h door with coat rail - 1x 350h door with an individual compartment

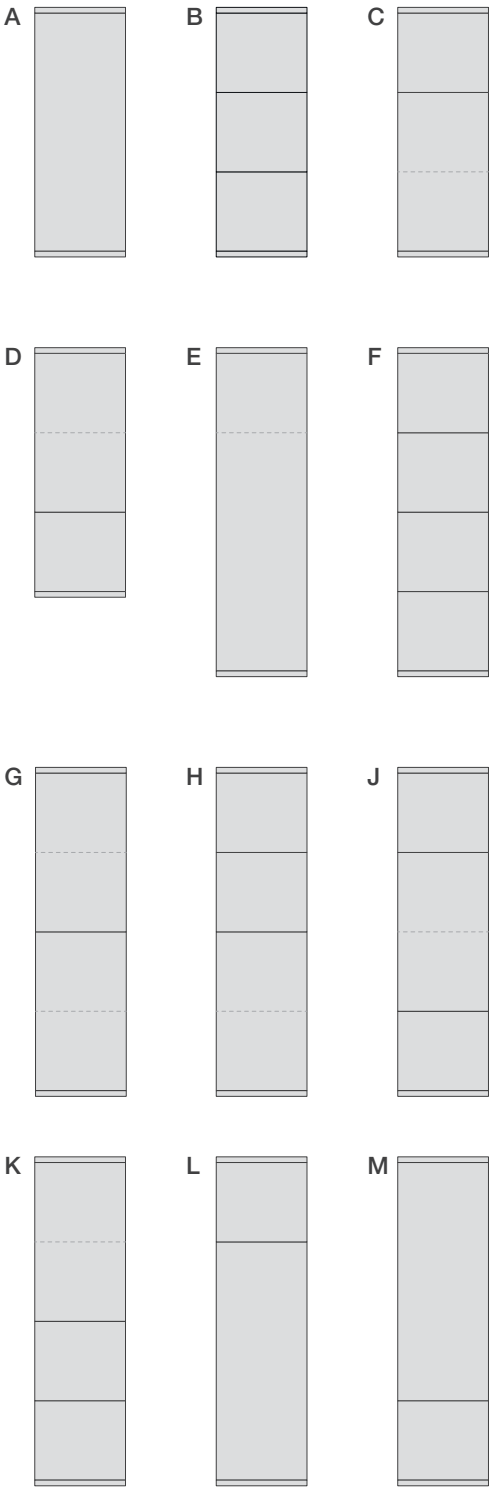
There are 3 locking styles to choose from, these are Standard Lock, Combination Lock and Digital Keypad Lock. Suffix the relevant code onto the end of the unit code (e.g. for use of the Digital Keypad Lock on the **NML/3B**, use code **NML/3B/DKL**). An additional cost per unit will need to be added to the order. See individual pages for details.

Additionally, an Integrated Postal Slot can be specified using suffix **.../PST**. A Modular Locker Specification Form will need to supplied with your order which will detail which doors require a postal slot. An additional cost per door will need to be added to the order. See page 260 for details.

For contrasting finishes on any or all the doors so it is different to the carcase, suffix **.../CON**. A Modular Locker Specification Form will need to supplied with your order which will detail what finishes you require and where. If you decide to use one of the coloured MFC finishes, only available on door fronts, this can also be detailed on the Modular Locker Specification Form. An additional cost per door will need to be added to the order. See page 260 for details.

Once chosen, specify the length of the modular lockers top / bottom by suffixing the amount of modular lockers used onto the end of its code (e.g. when 3x modular lockers are specified, use code **NML/TB3**). See page 260 for details.

Important Information: Combination locks are designed to be operated without the use of a key. The key supplied with each locker is unique to the individual lock, identifiable by the serial number on both the key and on the internal lock. We recommend these are kept in a secure location and used for recovering the locking codes ONLY and not for general unlocking / locking.



Standard Key Lock
Turn and open

Combination Lock
4 Digit Combination, turn and open

Digital Keypad Lock
Electronic access, turn and open

Storage

Modular Lockers

MFC: Available in Ash, Autumn Cherry, Beech, Chester Oak, English Walnut, Grey, Grey Nebraska Oak, Laurentii Wenge, Natural Nebraska Oak and White

Desk Mounted Screens

System, Acoustic, Contract, Hygiene Protection and MoveMe

Desk mounted screens act as a division between multiple users, adding a degree of privacy if required. The portfolio provides compatible desk mounted screens in several styles, for all desking ranges manufactured by Elite Office Furniture. The options include frameless and aluminium trim panels, manufactured from acrylic, MFC, or with an upholstered finish. A range of acoustic screens certified to Class B International Standards, ISO 354:2003, ISO11654:1997, ISO9613 & ISO9613-1:1993, are available for over desk applications.

Floor Standing Screens

System, Hygiene Protection, Oases, Huddle Pods, Guardian, Park, Hush and Cove

Floor standing screens are an excellent way to break up working environments, maximising the functionality of the space and surroundings. A range of floor standing screens are available to segregate open areas into flexible work environments that can be reconfigured easily, as the requirement of the space changes. The acoustic properties of the panels support the reduction of noise pollution and transfer to other areas.

Huddle Pods deliver segregated meeting areas within open plan spaces, great for informal discussions that require interaction with other parties. They are ideal for providing privacy in an otherwise busy and active workspace. Huddle Pods are available in 90, 60 and 45 degrees pods and can be linked to create a myriad of modular configurations.

Oases Introduction

As workspaces evolve, there has been a rapid transition towards agile and hybrid working. This developing concept focusses on providing flexible environments for employees, allowing them to choose from a variety of settings according to the nature of what they are doing.

Oases' diverse range of flexible configurations offer modular solutions for single workspaces, one-to-one zones, instant dropdown points and soft seating for developing agile and focused workspaces.

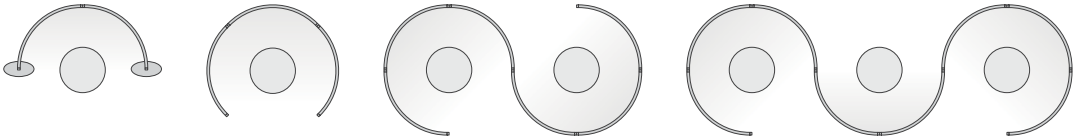
Screens

Huddle Pods - How to Specify

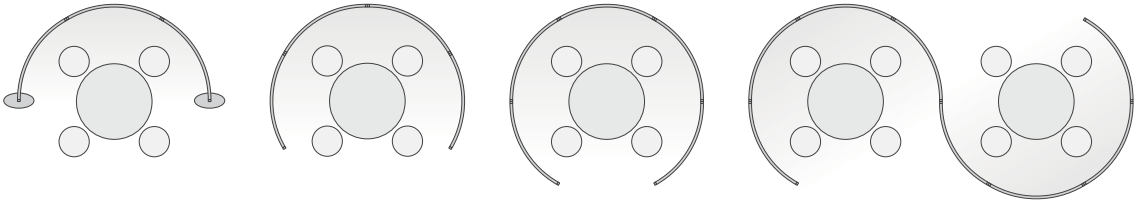
90 Degree Huddle Pod

- 1x screen will complete a 90 degree section.
- 4x sections to complete a full circle.
- Will accommodate standing area.



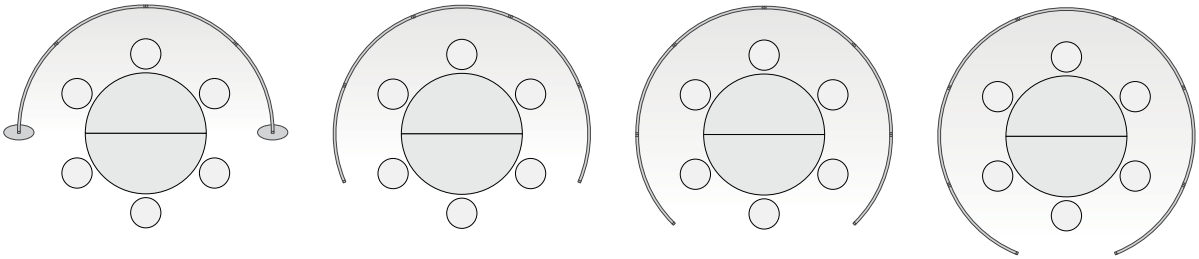
60 Degree Huddle Pod

- 1x screen will complete a 60 degree section.
- 6x sections to complete a full circle.
- Will accommodate standing area and / or sit down meetings.



45 Degree Huddle Pod

- 1x screen will complete a 45 degree section.
- 8x sections to complete a full circle.
- Will accommodate standing area, sit down meetings and / or informal meetings.



Huddle Pods

- The screen is constructed using aluminium extrusions.
- The fabric screen is constructed using MDF panels with face applied 2mm flame bonded foam backed fabric, retained within the aluminium frame.
- Acrylic screens constructed using two 3mm acrylic panels retained within the aluminium frame.
- Levelling feet allow for 25mm height adjustment.
- Huddle screens have been designed to comply with the following standards: BS 1023-1:1997, BS 1023-2:2000 and BS 1023-3:2000.

Terms and Conditions

INTERPRETATION

1. In these Conditions, the following definitions apply:
"Business Day" means a day (other than a Saturday, Sunday or public holiday) when banks in London are open for business;
"Conditions" means the terms and conditions set out in this document as amended from time to time in accordance with clause 52;
"Contract" means the contract between EOF and the Customer for the sale and purchase of the Goods in accordance with these Conditions;
"Customer" means the person or firm who purchases the Goods from EOF;
"EOF" means Elite Office Furniture (UK) Ltd. a company incorporated in England and Wales with company number 03365655;
"Force Majeure Event" means has the meaning given in clause 46;
"Goods" means the goods (or any part of them) set out in the Order;
"Order" means the Customer's order for the Goods, as set out [in the Customer's purchase order form OR overleaf OR in the Customer's written acceptance of the EOF's quotation OR in the Customer's purchase order form, the Customer's written acceptance of EOF's quotation]
"Specials" means any bespoke products manufactured or otherwise supplied by EOF to the Customer's Specification; and
"Specification" means any specification for the Goods agreed between the parties in accordance with clause 9.

2. In these Conditions:

2.1 a person includes a natural person, corporate or unincorporated body (whether or not having separate legal personality);

2.2 a reference to a party includes its personal representatives, successors or permitted assigns;

2.3 a reference to a statute or statutory provision is a reference to such statute or provision as amended or re-enacted. A reference to a statute or statutory provision includes any subordinate legislation made under that statute or statutory provision, as amended or re-enacted;

2.4 any phrase introduced by the terms including, include, in particular or any similar expression shall be construed as illustrative and shall not limit the sense of the words preceding those terms; and

2.5 a reference to writing or written includes faxes and e-mails.

BASIS OF THE CONTRACT

3. These Conditions apply to the Contract to the exclusion of any other terms that the Customer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing. The Order constitutes an offer by the Customer to purchase the Goods in accordance with these Conditions.

4. The Order shall only be deemed to be accepted when EOF issues a written acceptance of the Order, at which point the Contract shall come into existence. The Customer is responsible for ensuring that the terms of the Order and any applicable Specification are complete and accurate. The Customer must communicate any errors to EOF's Customer Services Team within 24 hours (and confirmed in writing within 48 hours) and accepts that failure to do will render them liable for potential abortive costs.

5. The Contract constitutes the entire agreement between the parties. The Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of EOF which is not set out in the Contract.

6. Any samples, drawings, descriptive matter, or advertising produced by EOF and any descriptions or illustrations contained in EOF's catalogues, brochures and website are produced for the sole purpose of giving an approximate idea of the Goods described in them. They shall not form part of the Contract or have any contractual force.

7. A quotation for the Goods given by EOF shall not constitute an offer. A quotation shall only be valid for a period of 30 Business Days from its date of issue.

PRODUCTS

8. The Goods are, subject to clause 6, as described in EOF's catalogue as modified by any applicable Specification.

9. Requests for Special product(s) must be submitted on the official 'Elite Specials Request Form' which is available via the Elite web site or on request from EOF's Customer Services Department. When submitted the document will be processed by the Elite Specials team and a decision will be made either to accept or reject the request based on its validity and feasibility. It is EOF's aim to return completed forms within 2 – 3 Business Days.

10. To the extent that the Goods are to be manufactured in accordance with a Specification supplied by the Customer, the Customer shall indemnify EOF against all liabilities, costs, expenses, damages and losses (including any direct, indirect or consequential losses, loss of profit, loss of reputation and all interest, penalties and legal and other professional costs and expenses) suffered or incurred by EOF in connection with any claim made against EOF for actual or alleged infringement of a third party's intellectual property rights arising out of or in connection with EOF's use of the Specification. This clause 10 shall survive termination of the Contract.

11. EOF reserves the right to discontinue the manufacture or supply of the Goods or amend the specification of the Goods without notice:

11.1 if required by any applicable statutory or regulatory requirements; or

11.2 in accordance with its policy of continuous product development.

CANCELLATIONS AND VARIATIONS

12. It is in EOF's sole discretion, having regard to any agreed delivery dates, when to commence manufacture of the Goods. Cancellations must be communicated to EOF in writing. Cancellations received by EOF:

12.1 prior to manufacture may, in EOF's sole discretion, be subject to a 25% administration cost (such cost being a genuine pre-estimate of the cost of, amongst other things, the rescheduling of production runs);

12.2 following commencement of manufacture will be charged in full;

12.3 in respect of outsourced Goods (I.e. not manufactured by EOF) shall be subject to a 25% administration cost (such cost being a genuine pre-estimate of EOF cancelling its order with any third party supplier),
please note that whilst EOF may, but shall be under no obligation so to do, have regard to the stage of production reached when receiving the Customer's notice of cancellation when determining cancellation costs it reserves the right to charge for cancellations in full. Specials shall always be charged in full.

13. If the Customer wishes to change anything in the Contract, the request must be made in writing. EOF will inform the Customer whether it is willing to agree to the change and, if so, what will be the impact on the price and delivery date. The Customer must notify EOF in writing within 2 days of receiving EOF's response whether these changes are accepted and if so, the Contract will be deemed to have been varied accordingly. EOF will not proceed with the change until this notice is received. A request to reduce the quantity of Goods ordered will not result in a price reduction unless otherwise agreed in writing by EOF.

DELIVERY

14. EOF shall ensure that:

14.1 each delivery of the Goods is accompanied by a delivery note which shows the date of the Order, all relevant Customer and EOF reference numbers, the type and quantity of the Goods (including the code number of the Goods, where applicable), special storage instructions (if any) and, if the Order is being delivered by instalments, the outstanding balance of Goods remaining to be
delivered; and

14.2 if EOF requires the Customer to return any packaging materials to EOF, that fact is clearly stated on the delivery note. The Customer shall make any such packaging materials available for collection at such times as EOF shall reasonably request. Returns of packaging materials shall be at EOF's expense.

15. EOF shall deliver the Goods to the location set out in the Order (one address only) or such other location as the parties may agree ("Delivery Location") at any time after EOF notifies the Customer that the Goods are ready. Delivery requests for alternative addresses will be charged at a minimum of £110.00 and must be approved by EOF's Customer Services Team prior to placing the Order. EOF reserves the right to decline any such request.

16. Delivery of the Goods shall be completed on the Goods' arrival at the Delivery Location and in the case of ex-works on EOF notifying the Customer that the Goods are ready for collection. All deliveries must be signed for & appropriately dated. Items cannot be signed unchecked, it is the Customer's responsibility to visually check items delivered and investigate items where the packaging is visibly damaged or torn. Deliveries are inclusive of tailboard only where it is the Customer's responsibility to provide free assistance in unloading the vehicle. Once unloaded to the tailboard of the vehicle and handed to the Customer, it is their responsibility from here on. Notification of shortages and/or damages must be made in writing to EOF within 3 days of delivery.

17. Any dates quoted for delivery are approximate only, and the time of delivery is not of the essence. EOF shall not be liable for any delay in delivery of the Goods that is caused by a Force Majeure Event or the Customer's failure to provide EOF with adequate delivery instructions or any other instructions that are relevant to the supply of the Goods. EOF deliver on multi-drop vehicles and no guarantee can be made to set timescales. However, if the volume permits a dedicated delivery can be made (subject to additional costs) and an estimated time of delivery can be requested. In such cases EOF will not be liable for financial penalties resulting in late delivery of products.

18. EOF shall have no liability for any failure to deliver the Goods to the extent that such failure is caused by a Force Majeure Event or the Customer's failure to provide EOF with adequate delivery instructions or any other instructions that are relevant to the supply of the Goods.

19. If the Customer fails to take delivery of the Goods within 3 Business Days of EOF notifying the Customer that the Goods are ready, then, except where such failure or delay is caused by a Force Majeure Event or EOF's failure to comply with its obligations under the Contract:

19.1 delivery of the Goods shall be deemed to have been completed at 9.00 am on the third Business Day after the day on which EOF notified the Customer that the Goods were ready; and

19.2 EOF shall store the Goods until delivery takes place, and charge the Customer for all related costs and expenses (including insurance, storage and redelivery).

20. If 10 Business Days after the day on which EOF notified the Customer that the Goods were ready for delivery the Customer has not taken delivery of them, EOF may resell or otherwise dispose of part or all of the Goods and, after deducting reasonable storage and selling costs, account to the Customer for any excess over the price of the Goods paid by the Customer or charge the Customer for any shortfall below the price of the Goods.

21. EOF may deliver the Goods by instalments, which shall be invoiced and paid for separately. Each instalment shall constitute a separate Contract. Any delay in delivery or defect in an instalment shall not entitle the Customer to cancel any other instalment.

QUALITY/RETURNS

22. EOF warrants that on delivery, and for a period of 5 years from the date of delivery ("Warranty Period"), the Goods shall:

22.1 conform in all material respects with their description and any applicable Specification;

22.2 be free from material defects in design, material and workmanship; and

22.3 be of satisfactory quality (within the meaning of the Sale of Goods Act 1979); and

22.4 be fit for any purpose held out by EOF.

23. Subject to clause 24 if:

23.1 the Customer gives notice in writing to EOF during the Warranty Period within a reasonable time of discovery that some or all of the Goods do not comply with the warranty set out in clause 22;

23.2 EOF is given a reasonable opportunity of examining such Goods; and

23.3 the Customer (if asked to do so by EOF) returns such Goods to EOF's place of business at EOF's cost,
EOF shall, at its option, repair or replace the defective Goods, or refund the price of the defective Goods in full.

24. EOF shall not be liable for the Goods' failure to comply with the warranty set out in clause 22 in any of the following events:

24.1 the Customer makes any further use of such Goods after giving notice in accordance with clause 22;

24.2 the defect arises because the Customer failed to follow EOF's oral or written instructions as to the storage, commissioning, installation, use and maintenance of the Goods or (if there are none) good trade practice regarding the same;

24.3 the defect arises as a result of EOF following any drawing, design or Specification supplied by the Customer;

24.4 the Customer alters or repairs such Goods without EOF's prior written consent;

24.5 the defect arises as a result of fair wear and tear, wilful damage, negligence, or abnormal storage or working conditions; or

24.6 the Goods differ from their description or, as the case may be, the Specification as a result of changes made to ensure they comply with applicable statutory or regulatory requirements.

25. Wood veneers vary in grain and colour, EOF do not book match veneers and work with pre-veneered boards limiting the matching of veneers on adjoining surfaces. EOF will not be liable whatsoever for any variation and shall be under no obligation to accept return of Goods where a variation occurs. Veneer is a natural material and variations on pre-veneered board are inevitable. If the Customer requires book matching on veneers a specialist supplier should be identified and appointed.

26. Except as provided in clauses 22 to 28 (inclusive), EOF shall have no liability to the Customer in respect of the Goods' failure to comply with the warranty set out in clause 22.

27. Except as set out in these Conditions, all warranties, conditions and other terms implied by statute or common law are, to the fullest extent permitted by law, excluded from the Contract.

28. These Conditions shall apply to any repaired or replacement Goods supplied by EOF.

Terms and Conditions

TITLE AND RISK

29. The risk in the Goods shall pass to the Customer on completion of delivery.

30. Title to the Goods shall not pass to the Customer until EOF has received payment in full (in cash or cleared funds) for:

    30.1 the Goods; and

    30.2 any other goods or services that EOF has supplied to the Customer.

31. Until title to the Goods has passed to the Customer, the Customer shall:

    31.1 hold the Goods on a fiduciary basis as EOF's bailee;

    31.2 store the Goods separately from all other goods held by the Customer so that they remain readily identifiable as EOF's property;

    31.3 not remove, deface or obscure any identifying mark or packaging on or relating to the Goods;

    31.4 maintain the Goods in satisfactory condition and keep them insured against all risks for their full price from the date of delivery;

    31.5 notify EOF immediately if it becomes subject to any of the events listed in clause 43; and

    31.6 give EOF such information relating to the Goods as EOF may require from time to time,
    but the Customer may resell or use the Goods in the ordinary course of its business.

32. If before title to the Goods passes to the Customer the Customer becomes subject to any of the events listed in clause 43, or EOF reasonably believes that any such event is about to happen and notifies the Customer accordingly, then, provided that the Goods have not been resold, or irrevocably incorporated into another product, and without limiting any other right or remedy EOF may have, EOF may at any time require the Customer to deliver up the Goods and, if the Customer fails to do so promptly, enter any premises of the Customer or of any third party where the Goods are stored in order to recover them.

FINANCIAL - PRICES

33. The price of the Goods shall be the price set out in the Order, or, if no price is quoted, the price set out in EOF's published price list in force as at the date of delivery.

34. EOF may, by giving notice to the Customer at any time before delivery, increase the price of the Goods to reflect any increase in the cost of the Goods that is due to:

    34.1 any factor beyond EOF's reasonable control (including foreign exchange fluctuations, increases in taxes and duties, and increases in labour, materials and other manufacturing costs);

    34.2 any request by the Customer to change the delivery date(s), quantities or types of Goods ordered, or the Specification; or

    34.3 any delay caused by any instructions of the Customer or failure of the Customer to give EOF adequate or accurate information or instructions.

35. The price of the Goods is inclusive of the costs and charges of packaging. (Export product will be subject to additional charges, please contact the Elite Customer Services for prices).

36. The price of the Goods is exclusive of amounts in respect of value added tax ("VAT"). The Customer shall, on receipt of a valid VAT invoice from EOF, pay to EOF such additional amounts in respect of VAT as are chargeable on the supply of the Goods.

FINANCIAL - PAYMENT

37. EOF requires 2 bank references for new account applications and reserves the right to change its financial requirements as and when it deems it appropriate.

38. EOF may invoice the Customer for the Goods on or at any time after the completion of delivery.

39. The Customer shall pay the invoice in full and in cleared funds by the end of the month following the month the invoice was dated. Time of payment is of the essence.

40. If the Customer fails to make any payment due to EOF under the Contract by the due date for payment ("due date"), then the Customer shall pay interest on the overdue amount at the rate of 2.5% per annum above [HSBC]'s base rate from time to time. Such interest shall accrue on a daily basis from the due date until the date of actual payment of the overdue amount, whether before or after judgment. The Customer shall pay the interest together with the overdue amount. EOF reserves the right to charge interest on any overdue payment in accordance with the Late Payment of Commercial Debts (Interest) Act 1998. The Customer shall be liable for all reasonable costs (including legal and court costs) associated with the collection of overdue accounts.

41. The Customer shall pay all amounts due under the Contract in full without any deduction or withholding except as required by law and the Customer shall not be entitled to assert any credit, set-off or counterclaim against EOF in order to justify withholding payment of any such amount in whole or in part. EOF may at any time, without limiting any other rights or remedies it may have, set off any amount owing to it by the Customer against any amount payable by EOF to the Customer.

CUSTOMER'S INSOLVENCY OR INCAPACITY

42. If the Customer becomes subject to any of the events listed in clause 43, or EOF reasonably believes that the Customer is about to become subject to any of them and notifies the Customer accordingly, then, without limiting any other right or remedy available to EOF, EOF may cancel or suspend all further deliveries under the Contract or under any other contract between the Customer and EOF without incurring any liability to the Customer, and all outstanding sums in respect of Goods delivered to the Customer shall become immediately due.

43. For the purposes of clause 42, the relevant events are:

    43.1 the Customer suspends, or threatens to suspend, payment of its debts, or is unable to pay its debts as they fall due or admits inability to pay its debts, or (being a company) is deemed unable to pay its debts within the meaning of section 123 of the Insolvency Act 1986, or (being an individual) is deemed either unable to pay its debts or as having no reasonable prospect of so doing, in either case, within the meaning of section 268 of the Insolvency Act 1986, or (being a partnership) has any partner to whom any of the foregoing apply;

    43.2 the Customer commences negotiations with all or any class of its creditors with a view to rescheduling any of its debts, or makes a proposal for or enters into any compromise or arrangement with its creditors other than (where the Customer is a company) where these events take place for the sole purpose of a scheme for a solvent amalgamation of the Customer with one or more other companies or the solvent reconstruction of the Customer;

    43.3 (being a company) a petition is filed, a notice is given, a resolution is passed, or an order is made, for or in connection with the winding up of the Customer, other than for the sole purpose of a scheme for a solvent amalgamation of the Customer with one or more other companies or the solvent reconstruction of the Customer;

    43.4 (being an individual) the Customer is the subject of a bankruptcy petition or order;

    43.5 a creditor or encumbrancer of the Customer attaches or takes possession of, or a distress, execution, sequestration or other such process is levied or enforced on or sued against, the whole or any part of its assets and such attachment or process is not discharged within 14 days;

    43.6 (being a company) an application is made to court, or an order is made, for the appointment of an administrator or if a notice of intention to appoint an administrator is given or if an administrator is appointed over the Customer;

    43.7 (being a company) a floating charge holder over the Customer's assets has become entitled to appoint or has appointed an administrative receiver;

    43.8 a person becomes entitled to appoint a receiver over the Customer's assets or a receiver is appointed over the Customer's assets;

    43.9 any event occurs, or proceeding is taken, with respect to the Customer in any jurisdiction to which it is subject that has an effect equivalent or similar to any of the events mentioned in clause 43.1 to clause 43.8 (inclusive);

    43.10 the Customer suspends, threatens to suspends, ceases or threatens to cease to carry on all or substantially the whole of its business;

    43.11 the Customer's financial position deteriorates to such an extent that in EOF's opinion the Customer's capability to adequately fulfil its obligations under the Contract has been placed in jeopardy; and

    43.12 (being an individual) the Customer dies or, by reason of illness or incapacity (whether mental or physical), is incapable of managing his or her own affairs or becomes a patient under any mental health legislation.

    43.13 Termination of the Contract, however arising, shall not affect any of the parties' rights and remedies that have accrued as at termination. Clauses which expressly or by implication survive termination of the Contract shall continue in full force and effect.

LIMITATION OF LIABILITY

44. Nothing in these Conditions shall limit or exclude EOF's liability for:

    44.1 death or personal injury caused by its negligence, or the negligence of its employees, agents or subcontractors (as applicable);

    44.2 fraud or fraudulent misrepresentation;

    44.3 breach of the terms implied by section 12 of the Sale of Goods Act 1979;

    44.4 defective products under the Consumer Protection Act 1987; or

    44.5 any matter in respect of which it would be unlawful for the EOF to exclude or restrict liability.

45. Subject to clause 44:

    45.1 EOF shall under no circumstances whatever be liable to the Customer, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, for any loss of profit, or any indirect or consequential loss arising under or in connection with the Contract; and

    45.2 EOF's total liability to the Customer in respect of all other losses arising under or in connection with the Contract, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall in no circumstances exceed the price of the Goods.

FORCE MAJEURE

46. EOF shall not be liable for any failure or delay in performing its obligations under the Contract to the extent that such failure or delay is caused by a Force Majeure Event. A Force Majeure Event means any event beyond a party's reasonable control, which by its nature could not have been foreseen, or, if it could have been foreseen, was unavoidable, including strikes, lock-outs or other industrial disputes (whether involving its own workforce or a third party's), failure of energy sources or transport network, acts of God, war, terrorism, riot, civil commotion, interference by civil or military authorities, national or international calamity, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, sonic boom, explosions, collapse of building structures, fires, floods, storms, earthquakes, loss at sea, epidemics or similar events, natural disasters or extreme adverse weather conditions, or default of suppliers or subcontractors. If the event of force majeure continues for a continuous period in excess of 43 months, the Customer shall be entitled to give notice in writing to EOF to terminate the Contract.

GENERAL

47. EOF may at any time assign, transfer, charge, subcontract or deal in any other manner with all or any of its rights or obligations under the Contract.

48. The Customer may not assign, transfer, charge, subcontract or deal in any other manner with all or any of its rights or obligations under the Contract without EOF's prior written consent.

49. Any notice or other communication given to a party under or in connection with the Contract shall be in writing, addressed to that party at its registered office (if it is a company) or its principal place of business (in any other case) or such other address as that party may have specified to the other party in writing in accordance with this clause, and shall be delivered personally, sent by pre-paid first class post, recorded delivery, commercial courier, fax or e-mail.

50. A notice or other communication shall be deemed to have been received: if delivered personally, when left at the address referred to in clause 49; if sent by pre-paid first class post or recorded delivery, at 9.00 am on the second Business Day after posting; if delivered by commercial courier, on the date and at the time that the courier's delivery receipt is signed; or, if sent by fax or e-mail, one Business Day after transmission.

51. The provisions of clauses 49 and 50 shall not apply to the service of any proceedings or other documents in any legal action.

52. If any court or competent authority finds that any provision of the Contract (or part of any provision) is invalid, illegal or unenforceable, that provision or part-provision shall, to the extent required, be deemed to be deleted, and the validity and enforceability of the other provisions of the Contract shall not be affected.

53. If any invalid, unenforceable or illegal provision of the Contract would be valid, enforceable and legal if some part of it were deleted, the provision shall apply with the minimum modification necessary to make it legal, valid and enforceable.

54. A waiver of any right or remedy under the Contract is only effective if given in writing and shall not be deemed a waiver of any subsequent breach or default. No failure or delay by a party to exercise any right or remedy provided under the Contract or by law shall constitute a waiver of that or any other right or remedy, nor shall it preclude or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall preclude or restrict the further exercise of that or any other right or remedy.

55. A person who is not a party to the Contract shall not have any rights under or in connection with it.

56. Except as set out in these Conditions, any variation to the Contract, including the introduction of any additional terms and conditions, shall only be binding when agreed in writing and signed by EOF.

57. The Contract, and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims), shall be governed by, and construed in accordance with, English law, and the parties irrevocably submit to the exclusive jurisdiction of the courts of England and Wales.
